### **Weitec Performance Springs for Volvo 850 and P1 C70/S70/V70**

Weitec performance spring sets are now available from DVS and are an ideal handling upgrade for Volvo 850 and P1 C70/S70/V70 sedans and wagons. Weitec spring sets offer lowering of approx 35mm from Volvo standard ride height (less on R models and cars equipped with sport suspension packages.)

Ride is noticeably firmer and handling is improved while still retaining a good ride quality.

Springs come in a high-quality powdercoated finish.

Call or email for further enquiries.

### **Civinco Standalone and piggyback ECUs**

We are now a reseller for Civinco ECUs. Civinco offer piggyback systems suitable for Motronic managed 850 and later 5 cylinder Volvo models, with both fixed and user-managable mapping as well as standalone systems for motorsports use for an added edge.

Visit [www.civinco.com](http://www.civinco.com) for more information or call or email us.
